

# Scrapbooking Organiser

This Scrapbooking Organiser has got everything you need - ribbon holder, tool holder and two handy compartments. What better way to get organized than to do some scrapping along the way? You can even choose different papers to make it coordinate with your decor!

## Materials

- Hideaway Paper Collection

The Hideaway Collection

### OTHER:

- Paper Lace

Kaisercolour - Olive

SB129 Scrapbooking Organiser

Wood Flourishes - Border Pack

Rhinestones

Paper Flowers - 2.5cm Lime

**This product comes flat packed** so you need to separate the required pieces by gently snapping off each piece at the tabs and sanding off any rough edges. Paint all the 3mm edges on all pieces in a coordinating colour and allow to dry. Also paint the large rectangle piece which will be the base of your organiser.

Layout all your pieces and work out which pieces you would like to cover with which paper. Completely cover the pieces with the holes in them and once the glue is dry carefully cut the holes out with a sharp craft knife.

Cover the remaining pieces, remembering to cut out the holes on the appropriate sides for the lids.

**Touch up any edges** that need it with paint or ink. For a 3d effect I have cut out some flowers from the Hideaway paper, embellished them with rhinestones and then adhered them with foam tape.

Paint or ink one of the Wooden Flourishes and adhere to the front for further decoration. I have also adhered some paper lace along the bottom, but you could also use coordinating ribbon or leave it plain.

**Once all pieces have been covered**, remembering to cover both sides, the project is ready to be put together.

Take the two pieces that cross in the centre to make the internal divisions of your unit and slide them together. Put some glue on the bottom of these and slot them into the base plate. Next take the back and the front two pieces and again glue and slot into base plate. Place some glue on the base of the two side pieces, but before inserting into the base plate slots, place the lid pieces into position.

## Hideaway Collection

Take refuge in your safe haven or scrap room with the Hideaway collection.

With fresh blues and greens, elegant swirls and pretty patterns these are gorgeous papers you are going to want to hideaway for yourself!
